FOUNDER'S MESSAGE

Dear Parents and Students,

Welcome to Gurusisya Chess Academy — a place where champions are built, minds are sharpened, and warriors of the chessboard are created.

Chess is not just a game. It is a battle of intelligence, courage, patience, and vision. Every move demands responsibility. Every position demands courage. And every game teaches us that victory belongs to those who think deeper, fight harder, and never surrender.

At Gurusisya Chess Academy, our mission is clear — to transform passionate learners into fearless competitors. We train our students to develop strategic thinking, mental toughness, and the confidence to face any challenge on and off the chessboard.

We believe that great players are not born — they are created through discipline, dedication, and relentless effort. Our academy focuses on building players who can compete at district, state, national, and international levels, carrying not only trophies but also the spirit of perseverance and excellence.

Every student who joins this academy becomes part of a culture that values hard work, resilience, and the fighting spirit until the last move.

I thank all the parents for trusting our vision and supporting their children in this intellectual journey. Together, we are shaping future champions and strong thinkers for the world.

Remember,

“On the chessboard and in life, the one who thinks deeper and fights longer becomes the true champion.”

With determination and pride,

Founder & Head Coach

Arriving early and staying late for practice demonstrates commitment and a willingness to put in extra work.

Maintain enthusiasm and positivity, even during setbacks or after making a mistake. Avoid pouting or letting a mistake affect your continued effort; simply move on to the next play

Thank you so so much 😊

Ramkumar sir focuses on each child's individual talent and provides training tailored to their potential. His personal attention helps kids understand concepts better and grow with ease. I enrolled my 5-year-old in his class, initially unsure of what he could grasp at such a young age. But under sir's guidance, he's now doing really well in chess. Thank you, sir, for your continued support and mentorship
